Rising Stars Admissions Process

Undergraduate student with an associate’s degree conferred:

- College transcript stating an associate’s degree was awarded and date
- Any other transcripts from colleges or universities where credits were earned
- Letter from employer stating they are a Keystone Stars facility

Undergraduate Student with college credits:

- Final high school transcripts
- College transcripts from all Universities attended
- Letter from employer stating they are a Keystone Stars facility

Undergraduate Student without college credits:

- If over 21 – we only need final high school transcripts
- If under 21 – we need final high school transcripts as well as SAT scores
- Letter from employer stating they are a Keystone Stars facility

Undergraduate International Students:

- Any student who completed a portion or all of high school outside of the United States or Canada will need to have their transcript evaluated by an outside agency. We suggest using WES (World Education Services) or they can go to NACES.org to find other agencies
- We would also need a TOEFL (Test of English as a Foreign Language) score as well from students outside of English speaking countries

Admissions requirements:

- High school or college GPA must be a 2.0 or higher
- SAT must be above a 750 if under 21 and no college credits

If requirements for admission are not met, student cannot be admitted until they have taken a total of 12 non-matriculated courses through the University to demonstrate their ability to succeed at the collegiate level.

Students are required to disclose college courses and cannot apply as traditional students to avoid sending in college transcripts.

***The letter from employer stating they are a Keystone STARS facility to waive the $200 deposit for commuter students, should be emailed to Dr. Laura Taddei at taddeiL@neumann.edu. These letters will then be forwarded on to admissions.
